SUMMARY

Seeking an entry level software developer position. To apply my programming experience, computer science knowledge, problem-solving skills, and eagerness to learn and passion, to reach my goal of becoming a successful Full-stack developer.

TECHNICAL SKILLS

- Java
- C++
- PHP
- MySQL
- Algorithms and Data Structures course work
- HTML / CSS
- JavaScript/jQuery/Ajax
- JDBC Template
- REST Architecture
- Spring Boot & Spring MVC Frameworks
- MySQL Workbench
- Git / GitHub
- Thyme leaf
- Data/Class Modeling
- Bootstrap Toolkit

EDUCATION & CERTIFICATION

City University of New York, CNY, York College **Dec. 2017**
Bachelor of Science in Computer Science GPA: 3.00

THE SOFTWARE GUILD **Nov. 2019**
9 Month Full Stack Java Web Development Bootcamp

EXPERIENCE

Software Guild 2019 4/02/2018 – 11/16/2019

- Created a Full stack java Blog web application following the MVC pattern. Implemented Java Spring Boot, and Spring MVC Frameworks, JDBC Template and MySQL for back end. Used Front end technologies like Java Script, CSS, HTML and Thymeleaf. The website allows for the creation of multiple user profiles.
- Produced contact list java web application. Using the MVC design pattern. Allows clients to create, update, read, and delete contacts. Developed using REST Web Service API with JSON and Ajax.
- Worked on a team to develop online website using the MVC design pattern. The website allows users to create, view, edit, and delete sightings and locations which tied to characters. Developed with a MySQL relational database using Spring JDBC Template to execute MySQL queries. Team workflow managed with Git and GitHub version control.

NYCDOE Department of Education, Queens, New York 10/10/17- 06/26/18
Computer Technician Intern

- Lead in designing online inventory relational database management system, using MySQL, PHP, and Ajax.
- Designed UI/UX using HTML CSS JavaScript, and jQuery.
- Troubleshoot software and hardware issues in a timely manner on a daily basis.
- Monitor update and maintain technology inventory over 350 items.
